

3

recommadation system - privacy. solve.

system design: dataset - bias. → identify tendencies.

shape people.

structurally bias
(how do we process char.)

neural

algorithms

AI agents. ↔ Human interaction. (siri).

how we ~~define~~ AI robot?

{ machine ^{increasing}
become a person.

relational elements: AI, creative, Dolly

decision making: ~~auto~~ auto driving

(人的阴暗面, 真的能全部
模拟所有决定吗?)

~~political~~

Embedded values.
